ELECTRIC CUSTOMERS

The new electric rate survey done across all of Pennsylvania is available at the Borough Office for review as well as on the website. We are pleased again this year that Mont Alto has the lowest rate, \$ 98.70 per 1,000 KWH compared to all of the municipalities that own their own systems as well as all of the Public owned Utilities. We are also very pleased to begin a new 5 ½ year contract period in July of 2017 with a very similar low locked in rate. Please take the time to look at the chart and compare Mont Alto to all of Pennsylvania. This report is compiled by an electrical engineering firm and distributed at the Pennsylvania Municipal Electric Association Conference yearly in State College of which Mont Alto is a member.
