### MANDATORY WATER CONSERVATION

August 1, 2024

Dear Borough of Mont Alto Water Customer:

As a result of the low water flows, created by the ongoing lack of rainfall, the Mont Alto Municipal Authority is implementing mandatory water conservation measures for all customers serviced by the Mont Alto water system.

The following water uses are considered nonessential and are prohibited during this time.

- Washing vehicles and homes.
- Filling and topping off swimming pools.
- Washing paved surfaces, such as sidewalks, streets, driveways, garages, patios, and parking areas.
- Operating water fountains, water sprinklers, artificial waterfalls and reflecting pools.
- The use of hoses, sprinklers or other means for sprinkling or watering of shrubbery, trees, lawns, gardens, landscaped areas, and outside plants.
- The use of fire hydrants by fire company for testing apparatus and fire department drills except as necessary for fire fighting or protection purposes.
- The use of fire hydrants by municipal road departments, contractors and all others except for protection purposes.

For further water conservation information and tips, please visit DEP's website at:

<https://www.dep.pa.gov/pages/search.aspx> and type in the search box, "Water Conservation". Or you can visit the Borough of Mont Alto's website at: [www.montaltoborough.com](http://www.montaltoborough.com), click on the "Municipal Authority" icon.

The Mont Alto Municipal Authority will lift the water conservation measures as soon as the water levels have risen. Please keep an eye on the Borough Office electronic sign or visit our website for further information and updates.

Sincerely,

Mont Alto Municipal Authority  
Board of Directors
