**SUBJECT: NEW WATER SOURCE**

**UPDATES: April 1, 2025**

As the Mont Alto Municipal Authority continues to search for new water sources, we will be updating our residents with our findings. Please see the most current updates below:

#### **NEW WATER SOURCE DEVELOPMENT (WELL)**

- Our hydrogeologist Mr. Jim Casselberry has identified four possible drilling locations. All four locations will have some impact on either the Mont Alto State Forest or Mont Alto State Park.
- February 28<sup>th</sup>, 2025, MAMA met with DCNR to view and discuss our options. DCNR will be reviewing the information and will be in contact with MAMA with feedback. If two of the four locations are agreeable to DCNR, we may proceed with coordination with DEP and eventual drilling.

#### **SHORT-TERM INTERCONNECTION**

- MAMA Board members, engineers and MAMA Solicitor met with Guilford Township Water Authority on March 10<sup>th</sup> to discuss the idea of a short-term emergency interconnection between the two entities. The Guilford Township Water Authority was receptive to the emergency interconnection, but many details remain to be worked out. MAMA will be meeting with Guilford on April 14<sup>th</sup>, for additional discussion and details of the emergency interconnect.

As the Municipal Authority receives information, we will keep the residents updated with our progress.

As always, please do not hesitate to contact the Mont Alto Borough office of questions or concerns. ***The mandatory water conservation remains in effect until further notice.***

Regards,

Curtis Finney

Chairman – Mont Alto Municipal Authority
